PREPARATION FOR YOUR SPECIAL DAY

Skincare & Makeup

I only use the best, all of my products have been tried and tested to ensure they are gentle to your skin, long lasting and deliver a beautiful finish. I use a variety of brands including Charlotte Tilbury, Dior, Bobbi Brown, Mac, Glossier and Urban Decay.

To ensure your makeup looks its best it is advisable to get a skincare routine in place at least 6 weeks before your special day. This will help limit breakouts and hydrate your skin and maybe even eliminate any ongoing skin issues you may have. Please let me know in advance if you have any new skin conditions that will affect your makeup.

Trial

I highly recommend a bridal trial before your special day; this lasts anywhere from one to two hours. During this time, I will get to know your skin and answer any questions you may have. We will go through the 'look and style' you are after and try a few ideas until we find the one you love.

Your Wedding Day

On your wedding day I will use the lipstick we use in your trial or if you prefer, we can use your own lipstick that you can then reapply. Alternatively, I recommend a light gloss to touch up your lips later in the day when your lipstick has worn off. My time with you on your wedding day is to ensure you are relaxed, comfortable and pampered. I recommend you have as few people as possible in the room whilst you are getting your make up applied, this allows yourself to be truly pampered.

Your wedding day makeup includes a facial massage and skin prep by myself using the gentlest of skin care, preparing your skin for your makeup to ensure longevity. I always request a good hour and a half with the bride, this allows for any interruptions or phone calls and gives me time to pamper you. My price also includes any lashes that you choose to have. I am also a bridal hair stylist, again I recommend a trial so we can find the perfect style for your special day.
